STATE ACTION  
Governor's Office of Planning and Budget  
116 State Capitol, SLC, UT 84114  
Phone: (801) 538-1535 Fax: (801) 538-1547

<b>1. Administering State Agency:</b>  Division of Oil, Gas and Mining 1594 West North Temple Suite 1210 PO Box 145801 Salt Lake City, Utah 84114-5801	<b>2. State Application Identifier Numbers:</b> (assigned by State Clearinghouse)  <b>3. Approximate date project will start:</b> <u>Expanding existing small mining operation (&lt;5 acres), to a large mining operation.</u>
<b>4. Areawide clearinghouse(s) receiving State Action: (to be sent out by agency in block 1)</b> Bill Howell Southeastern Association of Governments #10 Carbon Circle PO Box 1106 Price, Utah 84501	
<b>5. Type of action:</b> <div style="display: flex; justify-content: space-between;"><div><input type="checkbox"/> Lease</div><div><input checked="" type="checkbox"/> Permit</div><div><input type="checkbox"/> License</div><div><input type="checkbox"/> Land Acquisition</div></div> <div style="display: flex; justify-content: space-between;"><div><input type="checkbox"/> Land Sale</div><div><input type="checkbox"/> Land Exchange</div><div><input type="checkbox"/> Other</div></div>	
<b>6. Title of proposed action:</b> 7. Holliday Construction, Inc. Lime Ridge Mine – M/037/081	
<b>7. Description:</b> <b>During Operations:</b> Surface mining of limestone by conventional drilling and blasting techniques. Equipment includes front-end loaders, hydraulic excavators with impact hammer attachments, a crushing and screening circuit, conveyor systems, and a diesel generator. Sparse topsoil is salvaged prior to drilling and blasting the overburden. Overburden is stockpiled on site for use in final reclamation. Limestone is crushed on site to meet various product requirements and hauled by truck to markets. Portable crushing equipment operates in accordance with the Utah Division of Air Quality requirements.  <b>After Operations:</b> Overburden and reject limestone will be placed in the pit excavations as backfill to reduce highwall angles to 45 degrees or less. Salvaged soil will be spread over portions of the affected area at a 12-inch depth to create islands. Reject limestone fines and overburden will be spread as substitute soil on areas between the soil islands. Fertilizer and/or organic matter will be spread over the entire affected area. The island areas and all affected areas will be seeded. The ephemeral stream channel through the site will be restored to closely resemble the original configuration. Small portions of the pit excavations may remain as a water collection resource for wildlife and livestock. San Juan County Road #2351 leading through the site will remain intact, and include a culvert crossing over the ephemeral drainage channel.	
<b>8. Land affected (site location map required) (indicate county)</b>  S1/2 NW1/4 NW1/4 and N1/2 SW1/4 NW1/4 Section 16, Township 41 South, Range 20 East, SLBM, San Juan County, Utah	
<b>9. Has the local government(s) been contacted?</b>  Ed Scherick, San Juan County Planner - by copy of the public notice	
<b>10. Possible significant impacts likely to occur:</b>  None	
<b>11. Name and phone number of district representative from your agency near project site, if applicable:</b>  N/A	
<b>12. For further information, contact:</b>  Anthony A. Gallegos, Senior Reclamation Specialist Phone: (801) 538-5267	<b>13. Signature and title of authorized officer:</b>  _____, Permit Supervisor  Date: April 10, 2001
